TYPE OF INCIDENT: Offender Death; Heat Related

SYNOPSIS OF INCIDENT:

On August 2, 2011, at approximately 2200 hours, Offender Meyers, Thomas #680515, was observed by CO III M Sarubbi outside his cell, sitting on the floor, and he appeared to be disoriented. Offender Meyers was asked by Officer Sarubbi if he needed medical assistance, and he stated "No, he was fine". Officer Sarubbi notified a supervisor and was instructed to send Offender Meyers to the dayroom until count was complete. Approximately thirty minutes later, Officer Sarubbi noticed Offender Meyers on the floor unresponsive. Offender Meyers was taken to the unit infirmary emergency room by gurney. RN Gilmartin assessed Offender Meyers' condition and determined it was serious and called 911 for an ambulance and Emergency Medical Technicians. After arrival of EMT, it was deemed necessary to Care Flight Offender Meyers to Palestine Regional Medical Center. While en-route to the helicopter, Offender Meyers went into Cardiac Arrest and Cardio Pulmonary Resuscitation was initiated. At that time, it was determined not to transfer the offender from the ambulance but to continue CPR and go to PRMC. Upon arrival at PRMC, life saving measures continued and the offender's condition was assessed. All life saving efforts were terminated and Offender Meyers was declared deceased. The preliminary

cause of death was determined to be Cardiac Arrest by Dr. Ronald L. Thomas, the attending physician.

Officer of Inspector General Investigator Leigh Harding initiated and assigned this incident case number 2011-03082. As of October 25, 2011, the Office of the Inspector General case file (2011-03082) indicated that the results of the autopsy were pending. The case file remains open.

The family of Offender Griffin was contacted and they did not object to an autopsy. They stated they would not claim the body.

Additionally the temperature was 97 degrees. The humidity level at the time of the incident was 69% and the heat index was 114 degrees. All ventilation fans in the area of the incident were turned on and functioning properly. Offenders are allowed to wear commissary shorts and t-shirts in the dayroom. Ice water is placed in housing areas throughout the day. The hot water has been turned off to showers, and Offender Meyers did have a commissary fan in his cell. Additionally, both offenders and staff are trained on heat awareness and precautions in accordance with AD 10.64, Temperature Extremes in the Workplace.

An investigation into the offender death on the Coffield Unit August 2, 2011, yielded nothing to suggest that employee action / inaction was a contributing factor in this incident. All staff actions in this incident were in accordance with agency policy and procedures.
